Summary

For the 3-month period

The consolidated net profit (portion of the parent company) for the third quarter of year 2020 and 2019 were Baht 4.33 million and Baht 67.53 million, respectively with the following details.

- For the government project which is the project of internet service to remote area Zone Northeast, this quarter incurred loss of Baht 8.37 million due to the followings
 - O As at 30 September 2020, the Company recognized cost of project for the phase 1 for 98.47% of the total budgeted project cost and the installment no. 3 had been delivered on 31st August 2020 (the installment value is about Baht 307.47 million) and this installment was being inspected by the inspection committee of NBTC and it was expected to start phase 2 service of this installment since 1st December 2020 and it will generate more service revenue of Baht 9 million a month. there is only the remaining of the forth installment (the installment value is about Baht 55.80 million) is yet to be delivered and inspected. In this quarter, the Company recognized the project cost of phase 1 for only 2.51% or Baht 15.11 million while, last year, the Company recognized for 35.91% or Baht 209.49 million of the estimated budget cost of Baht 583 million. The latest budget cost of Phase 1 was Baht 601 million. The increase of the budget cost of Baht 18 million or 3%

arises from the delay of construction and installation of the Phase 1 installment no. 3 from the effect of COVID situation since the beginning of the year. This effect caused the increase of Phase 1 project cost arises in the third quarter. However, the Phase 1 will be completed within this December 2020 and the Company shall recognize the service revenue in Phase 2 for the whole project since 1st December 2020 onward.

O The Company recognized revenue and profit of phase 2 (for the Internet service which was officially started) for the installment 1 of phase 1 has been started officially since March 1, 2020, the installment 2 of phase 1 has been started since May 1, 2020 and the installment 3 of phase 1 has been started since December 1, 2020. The remaining was the installment 4 of phase 1 is pending for delivery and not started service yet. The monthly revenue for the internet service of phase 2 can be categorized as below.

Job delivered	Details	Monthly	Proport	Service Start Date
		Revenue	ion	
		(Million Baht)		
Phase 1,	Job Type 1 for 1,135 service	5.12	23%	1 March 2020
Installment 1	points			
Phase 1,	Job Type 1 for 962 service points	7.88	34%	1 May 2020
Installment 2	Job Type 4 for 380 service points			
	Job Type 5 for 2 service points			
Phase 1,	Job Type 2 for 1 service point	8.66	39%	1 December 2020
Installment 3	Job Type 3 for 169 service points			
Phase 1,	Job Type 2 for 15 service points	0.94	4%	In process of
Installment 4				delivery and
				inspection
	Total	22.60	100%	

In Quarter 1, Quarter 2 and Quarter 3 of year 2020, the Company has recognized service revenue for Baht 5.12 million, Baht 31.13 million and Baht 39.01 million, respectively.

If the Company can start the service of phase 2 completely 100%, the Company will recognize the service revenue for Baht 22.60 million a month or Baht 271 million a year along with the contract term. The gross profit margin of the service of phase 2 is higher than the installation & construction of phase 1.

- O The loss incurred in Quarter 3 mainly come from the effect of delay for the delivery of the work of installment 3 of Phase 1 which led to the increase of project cost for 3 portions:
 - 1. The cost of construction of the work of the installment 3 of Phase 1 which is over from the budgeted project cost for Baht 7 million which need to be recognized in this period.
 - 2. The interest expenses which were allocated to the service in this quarter was Baht 5.89 million which increased from Quarter 1 significantly due to the Company still has not received the second installment payment for the work completed for installment 2 of phase 1. During the pending for such cash receipt, the loan principal was not reduced and there was the increase in loan to accommodate the working capital of the service of phase 2 and this led to the

increase of interest expense of the project. However, when cash receipt was done, the interest expense will reduce as well.

3. In the third quarter, the Company could not recognize the service revenue of the installment 3 of Phase 1 as this installment shall be recognized since 1st December 2020. However, the Company still need to maintain the fixed cost in order to support the service activities for the job installment 1 and 2 which were delivered and started to service already and included the installment 3 as well. The fixed costs included payroll cost for the maintenance staff, electricity cost, internet cost and other relevant cost.

However, the effect of the increase in cost as mentioned above will be temporarily existed. When the delivery and inspection of the installment 3 of phase 1 has been completed, the Company shall recognize the service revenue for 96% of phase 2 then the operating result will improve as well as previously planned.

- O The delay of the delivery and inspection of installment 3 of phase 1 arises from the force majeure which came from the tropical storm named "Podul" and "Kajiki" attacked in the north-east area during end of August till year-end of 2019 and the effect from the preventive measures of COVID-19 by the emergency decree during the beginning of year 2020 which the Company reported to SET since May 15, 2020.
- For the period of year 2020, the operating result of Silkscreen and Label Printing business was improved as profit increased for Baht 5.39 million from the increase in revenue for 5.63%.
- IT business had net profit/(loss) from operation for the third quarter for the year 2020 and 2019 for Baht 0.05 million and Baht (4.14) million. The operating performance improved from last year due to the business restructuring by transfer of this business to the associate company.
- Broadband business had net profit/(loss) from operation for the third quarter for the year 2020 and 2019 for Baht (4.85) million and Baht 1.66 million, respectively. The net loss increased from prior year due to the decrease of revenue about 67% as the number of subscribers declined.

For the 9-month period

The consolidated net profit/(loss) (portion of the parent company) for the 9-month period of year 2020 and 2019 were Baht 34.56 million and Baht 60.10 million, respectively. In year 2019, there is extraordinary expense item (non-cash item) which is loss from impairment on goodwill of investment in subsidiary in Malaysia amounting to Baht 44.69 million from sale of all shares holding in this subsidiary.

- IT business, which exclude the effect from sale of investment in subsidiary in Malaysia, has improved in operating performance although there was a little bit loss due to the transfer of IT business to the associate company which the Company has joint investment with the Malaysian company.
- Broadband business has improved its operating performance from the downsizing of its business and the transfer of staffs to government project.
- Silkscreen and Label Printing business has improvement in operating performance although there was the effect of COVID.
- Government project has decline in operating performance due to the delay of delivery and inspection of work of the installment 3 of Phase 1 which caused the Company still has not recognized the service revenue of this portion while the Company still need to maintain the fixed cost to support the service and maintenance and the

installation and construction cost which increased over the budgeted project cost from the effect of COVID 19 and the interest expenses allocated to service phase increased from the delay of cash receipt for the installment 2 of phase 1. However, the effect of the increase in cost as mentioned above will be temporarily existed. When the delivery and inspection of the installment 3 of phase 1 has been completed, the Company shall recognize the service revenue for 100% of phase 2 then the operating result will improve as well as previously planned.
